WHOA!

We teach 3 to 6 year old and We love it!

Characteristics

- Routine is very important

- Visual and hands-on learners

- Short attention span

- Limited vocabulary

- Need to move around

- Adapt to the necessity of the students

Example of Routine

- Welcoming Songs
- Circle time - Feeling Cards
- Conversation about topic
- Hands-on activity
- Transition song
- Arts and Crafts
- Library
- Good Bye Song & Final Prayer

Challenges

- Different ages and or special needs requiring appropriate materials
- Engaging new children
- Group size is too small or too big
- Need additional educators to help

Resources

01
Music
Welcome, transition and ending songs

02
Arts and crafts
Who doesn't love arts?!

03
Movement
Yes, We need to move!!

04
Role Play
Children learn about themselves and the world.

05
Story Time
To spark imagination, introduce a topic, give a topic context.

06
Science
Practice different skills and experiments, it's fun!

07
Videos
To present a story, a music, an experiment...

Activity- Reincarnation

Alligator Song

Song by Marcelo Serralva

From the egg comes an alligator
So cute
I will show you later

An alligator ... so little
He left his nest
Looking for food

He started to grow and grow

An alligator is youth
With his mouth
Full of tooth
looking for food

He had grown so much
He is so big now

An alligator... he is now adult
With big mouth
looking for food
 he is looking good

He had grown so much more and he is old (fala)
An alligator... is now a grandpa
He closed his mouth ....

Oh no ... this story is not going to have a sad ending
Because he will born again

From the egg comes an alligator
So cute
I will show you later

Activity- Reincarnation

Activities

"It is through education, rather than instruction, that humanity will be transformed."
——Allan Kardec, Obras Póstumas

Thanks!
